Notes to the Condensed Interim Consolidated Financial Statements For the six months ended May 31, 2016 (Unaudited - Expressed in Canadian dollars)

1. Nature of Operations

Search Minerals Inc. (the Company+) was incorporated under the provisions of the Business Corporation Act (British Columbia) on June 7, 2006. On May 3, 2007, the Company commenced trading on the TSX Venture Exchange (the SSX-V+) under the trading symbol SMY.V+. The Company is in the business of mineral exploration involving acquiring, exploring and evaluating mineral resource properties. At May 31, 2016, the Company was in the exploration and evaluation stage and had properties located in Canada. The Company corporate head office is located at 211, 901 West 3rd Street, North Vancouver, British Columbia, Canada.

The Company is currently exploring its mineral properties and has not yet determined whether the properties contain mineral reserves that are economically recoverable. The amounts shown as mineral properties represent costs incurred to date, less amounts recovered from third parties and/or written-down, and do not necessarily represent current or future fair values.

2. Going Concern

These condensed interim consolidated financial statements have been prepared on a going concern basis, which assumes that the Company will be able to meet its obligations and continue its operations for the foreseeable future. Realization values may be substantially different from carrying values as shown and these financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern. Such adjustments could be material.

The business of mining and exploring for minerals involves a high degree of risk and there can be no assurance that current operations, including exploration programs, will result in profitable mining operations. The recoverability of the carrying value of exploration and development properties and the Company's continued existence is dependent upon the preservation of its interest in the underlying properties, the discovery of economically recoverable reserves, the achievement of profitable operations, the ability of the Company to raise additional financing, if necessary, or alternatively upon the Company's ability to dispose of its interests on an advantageous basis. Changes in future conditions could require material write-downs of the carrying values.

At May 31, 2016, the Company had not yet achieved profitable operations, had a working capital deficiency of \$294,904, had an accumulated deficit of \$15,374,088 since inception and expects to incur further losses in the development of its business. Management is in the process of obtaining additional financial resources and believes sufficient resources will be available as required. Although the Company has been successful in the past in obtaining financing, there is no assurance that it will be able to obtain adequate financing in the future or that such financing will be on terms advantageous to the Company. The above factors may cast significant doubt upon the Companys ability to continue as a going concern and, therefore, it may be unable to realize its assets and discharge its liabilities in the normal course of business.

3. Basis of Presentation

These condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") applicable to the preparation of interim financial statements, including IAS 34 - Interim Financial Reporting. These condensed interim consolidated financial statements should be read in conjunction with the annual consolidated financial statements for the year ended November 30, 2015 which have been prepared in accordance with IFRS as issued by the IASB.

In the preparation of these condensed interim consolidated financial statements, the Company has used the same accounting policies and methods of computation as in the annual consolidated financial statements for the year ended November 30, 2015 except as outlined in Note 4.

The preparation of interim financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

Unless otherwise stated, all dollar amounts are in Canadian dollars.

4. Accounting Standards Issued But Not Yet Effective

The following new standard has been issued by the IASB but not yet applied:

IFRS 9, Financial Instruments, was issued in July 2014 and replaces IAS 39 Financial Instruments:

Recognition and Measurement. IFRS 9 was developed in phases by the IASB. As a result there are a number of transition options and requirements in relation to earlier versions of IFRS 9 prior to the mandatory effective date of IFRS 9 in its entirety. IFRS 9 is mandatory for annual periods beginning on or after January 1, 2018. IFRS 9 includes requirements for classification and

Notes to the Condensed Interim Consolidated Financial Statements For the six months ended May 31, 2016 (Unaudited - Expressed in Canadian dollars)

measurement of financial assets and financial liabilities; impairment methodology for financial instruments; and general hedge accounting. IFRS 9 has specific requirements for whether debt instruments are accounted for at amortized cost, fair value through other comprehensive income or fair value through profit or loss. IFRS 9 requires equity instruments to be measured at fair value through profit or loss unless an irrevocable election for use of fair value through other comprehensive income which results in changes in fair value not being recycle to the income statement. The Company has not adopted IFRS 9 and has not completed its assessment of the impact of this standard.

5. Receivables

	May 31, 2016 \$	November 30, 2015 \$
GST receivable	46,209	41,071
Government assistance receivable ⁽¹⁾	18,628	-

⁽¹⁾ The Government of Newfoundland, the Research Development Corporation of Newfoundland and Labrador and the Atlantic Canada Opportunity Agency have certain programs available to assist junior resource companies. Subsequent to May 31, 2016, the Company received \$18,628 of government assistance for pilot plant expenditures incurred prior to May 31, 2016.

6. Marketable Securities

The Company received 1,500,000 common shares of Quest Rare Minerals Ltd. (Quest+) pursuant to the sale of a mineral property. The shares have been classified as available-for-sale financial instruments and, as a result, are measured at fair market value each reporting period with any change in fair value recognized through other comprehensive loss.

During the six months ended May 31, 2016, the Company sold 816,500 common shares of Quest for gross proceeds of \$99,465 and accordingly, the Company recorded a gain on sale of marketable securities of \$17,815.

At May 31, 2016, the Company had 683,500 common shares of Quest with a fair value of \$116,195 (November 30, 2015 . 1,500,000 common shares of Quest with a fair value of \$105,000). During the six months ended May 31, 2016, the Company recorded the change in fair value of marketable securities of \$92,845 in other comprehensive income.

7. Mineral Properties - Schedule 1

Although the Company has taken steps to verify title to mineral properties in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee a clear title. Property title may be subject to unregistered prior agreements and regulatory requirements. The Company is not aware of any disputed claims of title.

The Company acquired the mineral properties primarily by staking the claims. In order to maintain title to the claims, the Company must incur minimum exploration expenditures per claim as specified by the Mineral Act of the Province of Newfoundland and Labrador. In lieu of incurring the minimum expenditures, the Company may make security deposits with the Government of Newfoundland and Labrador. Other commitments relating to mineral properties are as follows:

Port Hope Simpson REE District, Labrador

The Company acquired the Port Hope Simpson REE District primarily by staking the claims. In addition, the Company acquired the B and A Claims and the Quinlan Property.

B and A Claims

On December 10, 2009, the Company entered into a binding letter of intent (the %LOI+) with B and A Minerals Inc. (%B and A+), further defined in a Mining Option Agreement, for an option to acquire an undivided 100% interest in and to certain claims in southeast Labrador owned by B and A (%Bort Hope Simpson, B and A Claims+).

Notes to the Condensed Interim Consolidated Financial Statements For the six months ended May 31, 2016 (Unaudited - Expressed in Canadian dollars)

Under the terms of the Mining Option Agreement, to earn the undivided 100% interest in Port Hope Simpson, B and A Claims, the Company paid B and A an aggregate of \$140,000 and issuing an aggregate 1,100,000 common shares of the Company. The final payment and share issuance was made in January 2013. The Company now owns a 100% interest in the property.

The Mining Option Agreement is subject to a 3% net smelter return in favor of B and A, of which the Company can purchase 2% at any time for \$2,000,000.

Quinlan Property

On January 13, 2011, the Company entered into a binding letter of intent (the ‰OI+) with Andrew Quinlan, Roland Quinlan and Tony Quinlan (the ‰endors+). Pursuant to the LOI, the Company has the option to earn an undivided 100% interest in and to certain claims owned by the Vendors known as the Fox Harbour Claims (the ‰quinlan Property+). The Quinlan Property is comprised of three licenses totaling 48 claims located east of St. Lewis, Labrador.

Under the terms of the LOI, the Company earned an undivided 100% interest in Quinlan Property by making aggregate cash payments of \$90,000 and issuing an aggregate of 300,000 common shares of the Company.

The Vendors were granted a 1.5% net smelter return royalty (%NSR+). The Company may, at any time, purchase 1% of the net smelter return royalty for \$1,000,000. The Company must make annual cash advance payments of \$10,000 for the Quinlan Property to the Vendors commencing February 23, 2016 and continuing each year thereafter until commencement of commercial production, deductible against the NSR. During the six months ended May 31, 2016, the Company paid the \$10,000 annual cash payment.

Red Wine Property, Labrador

On June 28, 2015, the Company purchased from Great Western Minerals Group Ltd. (%WMG+) its interest in the Red Wine Property for \$20,000. GWMG had acquired its approximate 50% interest in the Red Wine Property pursuant to an option agreement between the Company and GWMG dated July 23, 2010. Following the acquisition, the Company now owns 100% of the Red Wine Property.

8. Payables

d. Basic and diluted loss per share

During the six months ended May 31, 2016, potentially dilutive common shares totaling 55,855,328 (2015: 39,842,732) were not included in the calculation of basic and diluted loss per share because their effect was anti-dilutive.

10. Technology Research

On November 13, 2013, the Company entered into a Purchase Agreement with InCoR Holdings Plc. wholly-owned subsidiary, InCoR Technologies Limited (‰CoR+), whereby InCoR agreed to purchase the intellectual property rights to the starved acid leaching technology (‰ALT+).

Pursuant to the Purchase Agreement, InCoR will purchase SALT for a total purchase price of \$2.2 million, comprised of the following: \$50,000 at closing (received):

- " \$50,000 upon delivery of a positive economic scoping study (received);
- \$100,000 upon the earlier of the completion of a positive bankable feasibility study and 18 months from the date of the Purchase Agreement (received): and.
- \$2,000,000 repayable from 25 percent of the net cash flow from a commercial application of SALT.

On September 30, 2015, the Company and InCoR amended the Purchase Agreement whereby InCoR agreed to provide the Company with \$650,000 in order to fully satisfy and discharge InCoR from any further obligation under the Purchase Agreement. The payment schedule consisted of \$250,000 at closing (received), \$200,000 on December 31, 2015 (received) and \$200,000 on February 28, 2016 (received). With the final \$200,000 payment made in March 2016, InCoR has now satisfied all terms of the amended Purchase Agreement and InCoR now owns the intellectual property rights to SALT.

The Company no longer has any interest in the SALT technology.

The Company records the proceeds received from the sale of SALT as other income in the period received or when receipt has been received as a subsequent event.

11. Related Party Transactions

During the three and six months ended May 31, 2016 and 2015, the Company incurred the following expenditures charged by directors and officers of the Company, or former directors and officers of the Company, and/or companies they owned or were significant shareholders of:
